BRUNSWICK REPORTS PATENT VERDICT TO AFFECT SECOND QUARTER EARNINGS

LAKE FOREST, Ill., Aug. 1, 2007 -- Brunswick Corporation (NYSE: BC) reported today that on Friday, July 27, a jury found for the plaintiff in a patent infringement suit against Brunswick before the United States District Court of Northern Virginia. The jury found that Brunswick's Mercury Marine Group had infringed on a patent of Electromotive, Inc. The patent at issue had expired in 2006 and describes a method for engine timing and the firing of cylinders.

The jury awarded Electromotive approximately \$3 million in damages, representing less than 3 percent of the amount originally sought by Electromotive. The court had previously rejected Electromotive's claim that the damage award should be trebled, finding that Mercury Marine had not engaged in any willful infringement.

The judgment will be included in the financial statements to be issued with the company's quarterly report on Form 10-Q for the second quarter to be filed today. Brunswick will report net earnings from continuing operations for the second quarter of 2007 of \$56.9 million, or \$0.63 per diluted share. Previously, the company had reported net earnings from continuing operations of \$58.9 million, or \$0.65 per diluted share, for the second quarter. The company said it is maintaining its previously announced full-year earnings estimate of \$1.20 to \$1.35 per diluted share for 2007.

Forward-Looking Statements

Certain statements in this news release are forward looking as defined in the Private Securities Litigation Reform Act of 1995. These statements involve certain risks and uncertainties that may cause actual results to differ materially from expectations as of the date of this news release. These risks include, but are not limited to: the effect of (i) the amount of disposable income available to consumers for discretionary purchases, and (ii) the level of consumer confidence on the demand for marine, fitness, billiards and bowling equipment and products; the effect of higher product prices due to technology changes and added product features and components on consumer demand; the effect of competition from other leisure pursuits on the level of participation in boating, fitness, bowling and billiards activities; the effect of interest rates and fuel prices on demand for marine products; the ability to successfully manage pipeline inventories; the financial strength of dealers, distributors and independent boat builders; the ability to maintain mutually beneficial relationships with dealers, distributors and independent boat builders; the ability to maintain effective distribution and to develop alternative distribution channels without disrupting incumbent distribution partners; the ability to maintain market share, particularly in high-margin products; the success of new product introductions; the success of marketing and cost management programs; the ability to maintain product quality and service standards expected by customers; competitive pricing pressures; the ability to develop cost-effective product technologies that comply with regulatory requirements; the ability to transition and ramp up certain manufacturing operations within time and budgets allowed; the ability to successfully develop and distribute products differentiated for the global marketplace; shifts in currency exchange rates; adverse foreign economic conditions; the success of global sourcing and supply chain initiatives; the ability to obtain components and raw materials from suppliers; increased competition from Asian competitors; competition from new technologies; the ability to complete environmental remediation efforts and resolve claims and litigation at the cost estimated; the effect of weather conditions on demand for marine products and retail bowling center revenues; and the ability to successfully integrate acquisitions. Additional factors are included in the company's Annual Report on Form 10-K for 2006 and Quarterly Report on Form 10-Q for the guarter ended March 31, 2007.
