Item 2.02 Results of Operations and Financial Condition.

On October 23, 2008, Brunswick Corporation ("Brunswick") announced its financial results for the third quarter of 2008. The news release issued by Brunswick announcing its third quarter 2008 earnings is incorporated herein by reference and is included as Exhibit 99.1 to this Current Report on Form 8-K.

In the news release, Brunswick uses non-GAAP financial measures. For purposes of SEC Regulation G, a "non-GAAP financial measure" is a numerical measure of a registrant's historical or future financial performance, financial position or cash flows that excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the most directly comparable measure calculated and presented in accordance with GAAP in the statement of income, balance sheet or statement of cash flows of the issuer; or includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable measure so calculated and presented. Operating and statistical measures and certain ratios and other statistical measures are not non-GAAP financial measures. GAAP refers to generally accepted accounting principles in the United States.

Brunswick has used the financial measures that are included in the news release for several years, both in presenting its results to stockholders and the investment community and in its internal evaluation and management of its businesses. Brunswick's management believes that these measures (including those that are "non-GAAP financial measures") and the information they provide are useful to investors because they permit investors to view Brunswick's performance using the same tools that Brunswick uses and to better evaluate Brunswick's ongoing business performance. Brunswick's management believes that the non-GAAP financial measure "free cash flow" is also useful to investors because it is an indication of cash flow that may be available for investment in future growth initiatives. Brunswick defines free cash flow from continuing operations as cash flow from operating and investing activities of continuing operations (excluding cash used for acquisitions and investments) and excluding financing activities of continuing operations.

The information in this report and the exhibit attached hereto shall not be deemed to be "filed" for purposes of Section 18 of the Securities and Exchange Act of 1934, or incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.

Item 9.01 Financial Statements and Exhibits.

BRUNSWICK REPORTS LOSS FOR THIRD QUARTER, CITES PRODUCTION CUTS, WRITE-DOWNS, RESTRUCTURING CHARGES

LAKE FOREST, Ill., Oct. 23, 2008 – Brunswick Corporation (NYSE: BC) reported today results for the third quarter of 2008, which include the following:

- A net loss of \$591.4 million, or \$6.70 per diluted share, for the third quarter of 2008, which
 includes \$4.31 per diluted share of non-cash goodwill and trade name impairment charges, \$0.28
 per diluted share of restructuring charges and \$1.78 per diluted share of non-cash charges for
 special tax items.
- Total sales for the quarter down 22 percent versus a year ago to approximately \$1.0 billion, driven by a 28 percent drop in marine sales.
- Fitness segment sales up 8 percent in the quarter on strong demand for commercial product.
- Cash on hand of \$342.9 million at quarter's end.

"The marine market in the United States is becoming increasingly challenging due to difficult economic conditions, financial market upheaval and tightening credit availability, on top of the continuing weak housing market," said Brunswick Chairman and Chief Executive Officer Dustan E. McCoy. "According to preliminary industry statistics in the United States, retail demand for boats in our key fiberglass segments dropped nearly 40 percent in the third quarter versus a year ago, and a slowdown in demand has spread to regions outside of the United States. Given this environment, limiting our loss from operations to \$0.33 per diluted share before charges and ending the quarter with a significant cash balance is commendable and reflects the hard work of individuals across the entire Brunswick organization. Our cost reduction activities are taking hold and a relentless focus on managing the balance sheet is evident in our results."

Third Quarter Results

For the quarter ended Sept. 27, 2008, net sales decreased to \$1,038.8 million, down 22 percent from \$1,326.2 million a year earlier. The company had an operating loss of \$566.3 million for the third quarter of 2008. As previously announced, the company concluded that a significant portion of its goodwill and trade names was impaired, as prescribed by SFAS No. 142, Goodwill and Other Intangible Assets. Accordingly, the company recorded \$374.0 million of goodwill and \$121.1 million of trade name impairment charges, associated primarily with certain boat brands, in the third quarter of 2008. Both of these are non-cash charges. The operating loss in the third quarter also includes \$39.1 million of restructuring charges. In the third quarter of 2007, the company had an operating loss of \$46.3 million, which included \$66.4 million of trade name impairments and \$4.7 million of restructuring charges.

For the third quarter of 2008, the company reported a net loss from continuing operations of \$591.4 million, or \$6.70 per diluted share, as compared with a net loss of \$23.7 million, or \$0.27 per diluted share, from continuing operations for the third quarter of 2007. Diluted earnings per share for the third quarter of 2008 include goodwill and trade name impairment charges of \$4.31 per diluted share, restructuring charges of \$0.28 per diluted share, and a \$1.78 per diluted share charge for special tax items, primarily related to the

for the third quarter of	erred tax valuation allowan f 2007, included \$0.47 and sted share benefit from speci	\$0.03 per diluted share of		

Boat Segment

The Brunswick Boat Group comprises the Boat segment and produces fiberglass and aluminum boats and marine parts and accessories, as well as offers dealer management systems. The Boat segment had net sales for the third quarter of 2008 of \$392.5 million, down 36 percent from \$613.9 million in the third quarter of 2007. For the quarter, the segment had an operating loss of \$537.4 million, including goodwill and trade name impairment charges of \$477.0 million and restructuring charges of \$15.8 million. This compares with an operating loss of \$90.3 million, including \$66.4 million of trade name impairment charges and \$4.1 million of restructuring charges in the third quarter of 2007.

"During the quarter, we continued to decrease production throughout our marine operations in an effort to reduce the number of boats held by our dealers," McCoy explained. "This included a month-long furlough, during which we halted production at virtually all of our U.S. fiberglass boat manufacturing plants. While this was the right thing to do, it resulted in sales for our major fiberglass brands being down 50 percent in the quarter. Reduced fixed-cost absorption on lower sales adversely affected operating earnings.

"While we reduced the number of fiberglass boats held by our dealers by 1,400 during the third quarter, there remain 36 weeks of supply of fiberglass boats in the pipeline, down one week from the end of June 2008, but up nine weeks compared with the end of September last year," McCoy said. "As announced earlier this month, we will begin closing or furloughing seven fiberglass boat plants in the fourth quarter to continue to address the pipeline inventory situation."

Marine Engine Segment

The Marine Engine segment, consisting of the Mercury Marine Group, reported net sales of \$448.9 million in the third quarter of 2008, down 21 percent from \$566.7 million in the year-ago quarter. For the third quarter of 2008, the segment had an operating loss of \$8.6 million, which includes \$4.5 million of trade name impairments and \$12.9 million of restructuring charges. This compares with operating earnings of \$47.5 million in the same period of 2007, including \$0.6 million of restructuring charges.

"Sales were down in all business units in the Marine Engine segment in the quarter, most notably sales of sterndrive and outboard engines in the United States, which were down 39 percent," McCoy said. "Consistent with actions taken in the Boat Group, Mercury also cut production rates and instituted plant furloughs. Reduced fixed-cost absorption on lower sales had an adverse effect on operating earnings."

Fitness Segment

The Fitness segment is comprised of the Life Fitness Division, which manufactures and sells Life Fitness, Hammer Strength and ParaBody fitness equipment. Fitness segment sales increased 8 percent in the quarter to \$161.6 million, up from \$150.2 million in the year-ago quarter. Operating earnings for the quarter totaled \$10.3 million, down from \$11.8 million for the third quarter of 2007, and operating margins were 6.4 percent versus 7.9 percent a year ago. The Fitness segment recorded \$0.8 million in restructuring charges during the third quarter of 2008.

"Commercial equipment sales, which account for about 90 percent of Life Fitness' business, were strong in all regions during the third quarter. This helped offset the drop in sales of consumer products in the United States," McCoy said. "Operating earnings were down during the quarter, reflecting higher material prices and increased freight costs due to fuel surcharges from suppliers. These higher costs were partially offset by a reduction in operating expenses, as Life Fitness continues efforts to focus on reducing costs and improving productivity."

Bowling & Billiards Segment

The Bowling & Billiards segment is comprised of the Brunswick retail bowling centers; bowling equipment and products; and billiards, Air Hockey and foosball tables. Segment sales in the third quarter of 2008 totaled \$111.1 million, down 3 percent compared with \$114.6 million in the year-ago quarter. For the third quarter, the segment had an operating loss of \$10.4 million, which includes \$13.6 million of goodwill and trade name impairments, and \$1.8 million of restructuring charges. This compares with an operating loss of \$0.2 million in the year-ago period.

"For the quarter, sales declines were most prevalent within our billiards operation, where consumers continue to defer purchases of discretionary products. Further, the industry is facing an overall decline in the coin-operated pool table market," McCoy explained. "In an effort to address these concerns, we have implemented several cost-cutting and staff reduction moves in our bowling and billiards operations.

"For the quarter, bowling retail sales were down in the low-single digits, in part because there were fewer centers in operation versus a year ago, as six older centers were closed when their leases expired during the second quarter of 2008. However, revenues from a growing number of Brunswick Zone XLs helped to mitigate the effect of this reduction," McCoy added. "Bowling capital equipment sales were up in the mid-teens for the quarter, benefiting from new center and modernization activity both within and outside of the United States."

Nine-Month Results

For the nine months ended Sept. 27, 2008, the company had net sales of \$3,871.0 million, down 9 percent from \$4,235.2 million for the first nine months of 2007. The company had an operating loss of \$573.2 million for the first three quarters of 2008, including \$511.1 million of non-cash goodwill and trade name impairment charges and \$128.4 million of restructuring charges. This compares with operating earnings of \$93.0 million for the corresponding period in 2007, which included \$66.4 million of trade name impairment charges and \$13.4 million of restructuring charges.

For the first nine months of 2008, the company had a net loss from continuing operations of \$584.1 million, or \$6.62 per diluted share, which includes \$4.43 per diluted share of goodwill and trade name impairment charges, \$0.90 per diluted share of restructuring charges, an \$0.11 per diluted share gain on an investment sale, and a \$1.76 per diluted share charge for special tax items, primarily related to the establishment of a deferred tax valuation allowance. This compares with net earnings from continuing operations of \$67.5 million, or \$0.75 per diluted share, for the same period in 2007, which included \$0.46 per diluted share of trade name impairment charges, \$0.09 per diluted share of restructuring charges, and a \$0.06 per diluted share benefit from special tax items.

Conference Call Scheduled

Brunswick will host a conference call today at 10 a.m. CDT to discuss its financial results. At that time, McCoy will be joined by Peter B. Hamilton, senior vice president and chief financial officer, and Kathryn J. Chieger, vice president – corporate and investor relations. The call will be broadcast over the Internet at www.brunswick.com. To listen to the call, go to the Web site at least 15 minutes before the call to register, download and install any needed audio software.

Security analysts and investors wishing to participate via telephone should call (888) 820-8951 (passcode: Brunswick Q3). Callers outside of North America should call +1 (210) 234-0024 to be connected. These numbers can be accessed 15 minutes before the call begins, as well as during the call. A replay of the conference call will be available through midnight CDT Oct. 30, 2008, by calling (866) 447-7329 or (203) 369-1160. The replay will also be available at www.brunswick.com.

Forward-Looking Statements

Certain statements in this news release are forward looking as defined in the Private Securities Litigation Reform Act of 1995. These statements involve certain risks and uncertainties that may cause actual results to differ materially from expectations as of the date of this news release. These risks include, but are not limited to: the effect of (i) the amount of disposable income available to consumers for discretionary purchases, and (ii) the level of consumer confidence on the demand for marine, fitness, billiards and bowling equipment, products and services; the ability to successfully complete restructuring efforts in the timeframe and cost anticipated; the ability to successfully complete the disposition of non-core assets; the effect of higher product prices due to technology changes and added product features and components on consumer demand; the effect of competition from other leisure pursuits on the level of participation in boating, fitness, bowling and billiards activities; the effect of interest rates and fuel prices on demand for marine products; the ability to successfully manage pipeline inventories; the financial strength of dealers, distributors and independent boat builders; the ability to maintain mutually beneficial relationships with dealers, distributors and independent boat builders; the ability to maintain effective distribution and to develop alternative distribution channels without disrupting incumbent distribution partners; the ability to maintain market share, particularly in high-margin products; the success of new product introductions; the ability to maintain product quality and service standards expected by customers; competitive pricing pressures; the ability to develop cost-effective product technologies that comply with regulatory requirements; the ability to transition and ramp up certain manufacturing operations within time and budgets allowed; the ability to successfully develop and distribute products differentiated for the global marketplace; shifts in currency exchange rates; adverse foreign economic conditions; the success of global sourcing and supply chain initiatives; the ability to obtain components and raw materials from suppliers; increased competition from Asian competitors; competition from new technologies; the ability to complete environmental remediation efforts and resolve claims and litigation at the cost estimated; and the effect of weather conditions on demand for marine products and retail bowling center revenues. Additional factors are included in the company's Annual Report on Form 10-K for 2007 and Quarterly Report on Form 10-Q for the quarter ended June 28, 2008.

About Brunswick

Headquartered in Lake Forest, Ill., Brunswick Corporation endeavors to instill "Genuine Ingenuity" (TM) in all its leading consumer brands, including Mercury and Mariner outboard engines; Mercury MerCruiser sterndrives and inboard engines; MotorGuide trolling motors; Teignbridge propellers; Albemarle, Arvor, Bayliner, Bermuda, Boston Whaler, Cabo Yachts, Crestliner, Cypress Cay, Harris, Hatteras, Kayot, Lowe, Lund, Maxum, Meridian, Örnvik, Princecraft, Quicksilver, Rayglass, Savage, Sea Ray, Sealine, Triton, Trophy, Uttern and Valiant boats; Attwood marine parts and accessories; Land 'N' Sea, Kellogg Marine, Diversified Marine and Benrock parts and accessories distributors; IDS dealer management systems; Life Fitness, Hammer Strength and ParaBody fitness equipment; Brunswick bowling centers, equipment and consumer products; Brunswick billiards tables; and Dynamo, Tornado and Valley pool tables, Air Hockey and foosball tables.
